\* Official enrollment figures are not finalized until spring when they are reported to the U.S. Dept. of Education Integrated Postsecondary Education Data System (IPEDS).

<sup>1</sup> The Fall 2010 Tri-Campus total of 2,509 students consists of 1,327 at Hartford, 946 at Waterbury and 236 at Torrington. The previous year (Fall 2009) the Tri-Campus total of 2,481 students consisted of 1,299 at Hartford, 909 at Waterbury and 273 at Torrington.

<sup>2</sup> Charter Oak State College is a public external degree-granting college, and in previous years headcount enrollment at this institution had been reported separately from other public institutions. Fall 2009 statewide totals are restated here to include Charter Oak. In Fall 2009, 31% of enrolled students in the Charter Oak headcount had a residence outside of Connecticut; 39% were matriculated students (had paid the annual academic maintenance fee) but were not taking credit-bearing courses at Charter Oak. Just over half (53%) of these matriculated-only students were Connecticut residents. These figures suggest that students in the Charter Oak headcount may have higher levels of simultaneous enrollment at more than one institution than students at other Connecticut colleges and universities.
